Potted Ham, $\frac{1}{2}$ lb., 2 dozen in case	

PAN-AMERICAN PORK.

WHAT IS IT?

That's just what we want to explain. The demand to-day is for a cheap fat pork that is absolutely boneless, and feeling it our duty to supply this (like all other possible demands made upon us by our friends), we have produced something novel and new, and being a strictly up-to-date product have "dubbed" it

PAN-AMERICAN PORK.

It is a choice piece of thick fat pork, taken from the fat side of the shoulder of choice fat pigs, weighs from three to five pounds, and every ounce is good to eat.

A Trial will Convince You that it's a Winner.

Price per Barrel \$10.00

Get Your Order in Early and Avoid the Rush!

Good, 40 to 50 lbs., Plain	9½

The Successful Man

is one who knows what he wants to do—
how to do it—and does it !

The success of a business is measured by the money it makes ; but, after all, that is only the effect—the cause is pleased customers. Therefore, the first aim of every business should be to please. As Johnson says, “ For we that live to please, must please to live.” We must please to live ; or, in other words, we must please, to make money. We don't know any better way to please people than to give them what they want, and we believe more and more that they want good goods.

May is generally only a moderately good month for business—August finds the season at its height ; but it is a fact that during the month of May we shipped more orders than during the month of August last year. We are pleasing the people ! Are you one of them ?

Yours sincerely,

The Jacob Dold Packing Co.

Buffalo, N. Y., June 10, 1899.
